---

## SUMMARY

---

Organized and dependable professional with strong problem-solving, time management, and multitasking abilities. Skilled at meeting team goals and handling challenges with a positive attitude. Seeking a full-time role to utilize these strengths effectively.

## PROJECTS

---

- **ML based adas web application** - [Github](#)

ADAS (Advanced Driver Assistance Systems) enhance vehicle safety by using sensors, cameras, and AI to assist drivers. Features like Machine Learning and CNN enable obstacle detection, calculate distances, and send alerts to prevent collisions, ensuring safer and more comfortable driving

- **Personal Portfolio Website** - [portfolio](#)

Developed a responsive portfolio website showcasing projects and skills, utilizing HTML, CSS, and JavaScript. Implemented modern design principles and animations to enhance user experience and engagement

- **Web Developments**

Built a fully functional website from scratch using HTML, CSS, and JavaScript. Designed responsive layouts to ensure optimal viewing experience across various devices. Implemented interactive features such as image sliders and contact forms to enhance user engagement.
